PLACE & DATE ACQ.			25X1
----------------------	--	--	------

TRANSMISSION IS TENTATIVE

3. The Winter Harbor at Kherson opposite the granary appeared to be used for laying up old ships. Among those seen were two old tankers.

4. The small shipyard at the entrance to the Koshevaya River was engaged in repairing a few small vessels. No vessels were seen under construction there.

5. At the new shipyard on Karantinnyy Ostrov a large new tanker of about 12,000 tons was afloat in the creek with her stern just protruding into the river. A second large tanker, which appeared almost completed, was lying on the land parallel to the river with her stern facing the launching basin which ran at a right angle to the creek. This vessel appeared to have no visible means of support. Astern of this second tanker could be seen sections of a new vessel under construction. At the same time, the walls of a building were being built around the construction. *25X1*

6. Two photographs of the shipyard on Karantinnyy Ostrov showing a new 12,000-ton tanker, which was almost completed, and two photographs of a general view of the Dnepr River about 10 miles below Kherson, just before it reaches the sea *25X1*

1. [redacted] Comment: The photographs do not show a tanker but a dry cargo vessel. [redacted] the so-called [redacted]
[redacted] tanker is possibly the new 10,000-ton dry-cargo vessel [redacted]
